NOTABLE MARRIAGE.

Gov. J. C. W. Beckham and Miss
Jean Fuqua at Owensboro.

Miss Fuqua is Said to be Unusu-
ally Handsome and Attract-
ive Young Lady.

The marriage of Gov. J. C. W.
Beckham to Miss Jean Fuqua, of
Owensboro, will take place to-mor-
row from the First Presbyterian
church, of Owensboro.

It will, perhaps, be the most
noble wedding that has ever taken
place there, both on account of the
fact that the groom is the Governor
of the State and because the bride
is one of the most beautiful and
popular young women in that sec-
tion of Kentucky.

Miss Meme Smith, of Owensboro,
will be maid of honor, and the
bridesmaids will be Misses Julia
Knisikern, of Chicago, Miriam Rey-
nolds, of Rome, Ga., Olive Logan
of Shelbyville, Ky., and Olivia
Stuart and Daisy Todd, of Owens-
boro. Capt. Yulee Beckham,
brother of the Governor, from Shel-
byville, will be the best man, and
the groomsmen will be Messrs.
Robt. Wickliffe, of New Orleans,
Edgar Crawford, of Bardstown,
and Marc Stuart Ham Fuqua and
Col. Weir Griffith, of Owensboro.

Miss Fuqua's dress will be of
crepe over white satin, trimmed
with real lace and lilies of the val-
ley.

The bridal party will leave for
Chicago in the private car of W. B.
Knisikern, who is a brother-in-law
of Gov. Beckham. From Chicago
they will go to points West. Gov.
Beckham will be inaugurated Decem-
ber 11, and after the inaugural
ceremonies are over he and Mrs.
Beckham will go to Florida for an
extended visit.

GOES TO OWENSBORO.

In Gov. Beckham's Absence Sena-
tor Carter Will officiate at
Executive Office.

Frankfort, Ky., Nov. 18.—Gov.
Beckham left here this evening for
Owensboro. He was accompanied
by Col. Percy Haly, Assistant Adj-
utant General of the State Guard.
President Lillard H. Carter, of
the State Senate, will arrive here
from Anderson county Wednesday
evening and perform the duties of
chief executive until Governor
Beckham returns from his weddin-
tour.

CAUSED BY CONSUMPTION.

Mrs. Charlton Passes Away After
Long Illness.

The wife of Mr. William Charl-
ton died at her home on First street
Saturday. She had been sick for
some time and death was due to
consumption. She was about 45
years old and leaves a husband and
five children, all daughters.

Mrs. Charlton was a native of
Tennessee and had been a mem-
ber of the Baptist church for about
twenty-five years.

The interment took place in the
Hayes burying ground, four miles
north-east of the city, Sunday.

BOTH IN JAIL.

Chances Slim for Early Hearing
on Local Charge.

Will Franklin, col., who, with
Charles Lillard, col., is charged
with having burglarized Mr. M. D.
Kelly's jewelry store one evening
during the Elks fair here, has been
captured by Missouri officers. Lill-
ard was arrested shortly after the
robbery and both are in jail at
Springfield, Mo. Franklin and
Lillard are held in Missouri on a
charge of burglary in that state
and it may be some time before
they can answer the charge pre-
ferred here, as the Missouri authori-
ties think they will make out a
clear case against them.

NEW COUNCILMAN.

J. H. Eggleton Elected to the
Seventh Ward Vacancy.

The Council Once More Has a
Democratic Major-
ity.

The vacancy in the Seventh ward
that has existed for some time was
filled Saturday night at the council
meeting by the election of Mr. J. H.
Eggleton as councilman for the un-
expired term of thirteen and a half
months.

The resignation of the Repub-
lican member left the council made
up of 3 Democrats, 2 Independents
and 1 Republican. It was expect-
ed that the attempt to elect a coun-
cilmnan would result in a tie that
would give the deciding vote to the
mayor, but this was averted. There
was also a vacancy in the position
of city teamster and as a compro-
mised measure this position was
given to a Republican and Coun-
cilmnan Glass, the Republican
member, voted with the Democrats
to elect Mr. Eggleton. He received
four votes on the first ballot and his
election was then made unanimous.
The new councilman at once qual-
ified and took part in the subse-
quent elections.

Jordan Barker, col., who was
for many years city teamster, was
elected to his old position. Seeing
the drift of things, the two Independ-
ents voted with the others and
Barker received seven votes.

J. M. Cravens was elected to suc-
ceed J. M. Byrnes and W. E.
Shanklin to succeed Booth Morris,
resigned, on the police force. Both
are staunch Democrats and officer
Cravens has had several years' ex-
perience, during which he made
one of the best policemen the city
ever had. His return to the force
will add greatly to its efficiency.
Mr. Shanklin is also very capa-
ble man, who has had some experi-
ence as a special policeman.

Before adjournment Councilman
Eggleton announced that he would
"set up" a supper to the council and
other officials, at Schmitt's restau-
rant. The banquet came off with
covers laid for fifteen and the best
of feeling prevailed.

UNDER HEAVY BOND.

One Defendant Was Placed—Other
Court Matters.

Joseph Torian, a colored boy
about 13 years old, was held over to
the grand jury. Bond was fixed at \$250.
He failed to furnish same and was sent to jail. Torian got
in a row with some white children
Saturday and stabbed Evans Mc-
Pherson, aged ten. McPherson's
injuries are not of a serious nature,
although he was cut on both
shoulders.

Ed. Decker was fined \$10 and
costs on a charge of breach of the
peace.

Steven Haynes, disorderly conduct,
was fined one cent and the
costs. A fine of \$4 addition was
also registered against him for con-
tempt of court.

O. Dollins, breach of the peace,
fined \$10.

F. M. Dollins, disorderly conduct,
fined \$10.

George Almy, on a plea of guilty
of disorderly conduct, was fined \$5.

Tom Ferguson, disorderly conduct,
fined \$20 and trimmings.

John Shoulers was required to
give bond for \$500 to keep the peace
for twelve months, on account of
having threatened the life of his
wife.

Dr. Oldham Moves.

Dr. J. E. Oldham, Osteopath, has
removed from the corner of 14th and
Liberty streets to the corner of 10th and
Clay in the Methodist par-
sonage, where he can be found by
his patients.

Attorney John D. Hill has re-
turned from Dawson.

DEER NOT DISEASED

And Hunters Left on Their An-
nual Hunt.

HAND CLIPPED

From Arm and Hand Through Air
Fifty Feet.

The Christian County Hunting Club
left last week for their annual
hunt in Arkansas after having de-
ferred their trip one week, or ac-
count of the report to the effect that
disease prevailed among the deer.
A thorough investigation dis-
closed the fact that this story was
unfounded. They anticipate both a
pleasant and successful hunt, as
big game is reported to be abun-
dant this season. It is said that
the bear is more plentiful than for
years.

A horrible accident occurred at
Tharpe, says the Dover, Tenn.,
Record. Jim Herndon, an em-
ployee at a saw mill, belonging to
Dr. J. H. Scarboro, was setting
head blocks and approached too
near the saw when he was caught
and his hand clapped from his right
arm and hurled through the air a
distance of over fifty feet. Two
fingers were cut from the left hand
and another so badly injured that
it will perhaps have to be taken off.
It is believed that he will get well.

Railroad Construction

In Asia Minor. The controversy in regard to railroad construction in Asia Minor has been settled for the present by a concession granted to the Anatolia Railway company. This German company, it is understood, will extend its present line, which terminates at Erzerum, via Marash and Bagdad to Basra.

The opposition, led by the French company owning the Smyrna-Karsaba road, which extends east as far as Aden Karakusser, was removed by granting this company 40 per cent. of the share in the extension, and the local objection was obviated by a provision in the concession giving the Turkish government the right to purchase the line at any time.

Few railroad lines can be of greater prospective importance than this 2000 miles of railroad uniting the Persian gulf with Europe, forming a rapid transit to and from the east, opening up large tracts of agricultural country and paving the way for German commercial supremacy in Asia Minor and Mesopotamia.

It is not difficult to see how Germany, with preferential rates for goods on German lines, will be able to control

European news-
paper circulation in Asia Minor.

The intention of the government to

allow the organization committee

to continue the work of the association

the intention of becoming members.

The programme comprises the following:

FIRST SECTION—INLAND NAVIGATION, WORKS.

First Question.—Effect of regulating

the regime of rivers. (To show especially the effect of these works upon inundations.)

Second Question.—Progress made in mechanical applications of the feeding

canals.

SECOND SECTION—INLAND NAVIGATION, THE OPERATION.

Third Question.—State of natural

navigable waterways of restricted depth

above their maritime section. (Methods of operation and kinds of boats of light draft used in these sections, especially in application to the colonies.)

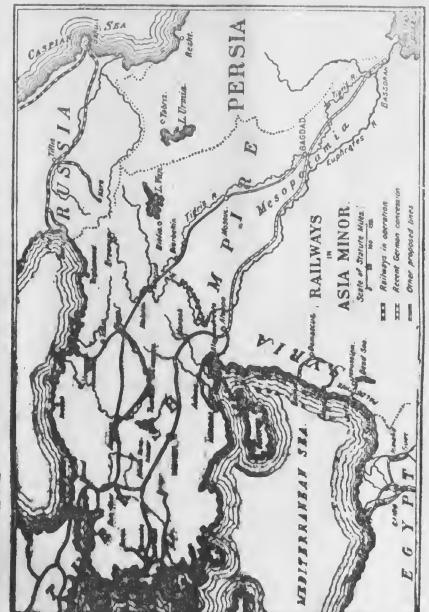

Fourth Question.—Progress made in the operation of navigable waterways. Privilaged navigation companies.

Fifth Question.—Institutions to pension and instruct the personnel of the boat crews.

THIRD SECTION—MARITIME NAVIGATION, WORKS.

Sixth Question.—The latest improvements in lighting and buoying coasts and harbor entrances.

Seventh Question.—The most recently

chief interests of Asia Minor and bounds the coast.

A reference to the accompanying map will show how Germany is acquiring commercial supremacy in Asia Minor. Germans purchased the Ottoman-Egyptian railroad, reduced the English company and extended the British line along the coast. The French and Dutch are by contrast under the French and Dutch—either by extending their line or by connecting their line with that of the English—thus preventing extension of both the Smyrna-Jenin Karakusser and the Smyrna-Jidde-Dhoda roads.

The two great distributing points—Constantinople and Smyrna—are those controlled by Germans and Greeks.

They now control the interior of Asia Minor and the great valley of the Tigris and Euphrates on German-controlled roads at a decided advantage.

Germans have obtained the right to build docks and warehouses at Haidar Pasha, the terminus of the Anatolian railway, and to transport through railroads for German goods on German lines. German freight cars may be sent across the Bosphorus and travel to Mespotamia and the confines of India and Persia without change. Goods from other countries will have to be transshipped as Constantinople is the port and will be compelled to pay a double toll.

But water transport is always, mile

for mile, cheaper than rail transport, and one scheme of competition remains

for other countries in Asia Minor.

They have achieved a respected position.

Part of them are employed by the government, and since last year are entitled to a pension.

They occupy positions as county physicians, school physicians, physicians for the poor and the municipal ambulance system, etc.

Mr. Dr. Latskaja, of the Peterburg Institute for experimental medicine, is one of the foremost experts in bacteriology, and her lectures are well attended by physicians of both sexes.

Miss Dr. Latskaja, of the city hospital, Obuchov, and a few other female physicians were last year

FOURTH SECTION—MARITIME NAVIGATION, OPERATION.

Second Question.—Preliminary to giving

the answer to this question, we must

know what the old east road was

and what Lump did to get a little fresh air.

Lump would take the cat and make ready to climb Lump if he became too red.

He also had a small umbrella and a member of the Society for the Prevention of Cruelty to Animals.

He expressed any great solicitude for

the cat mother, and actually wanted away and got a piece of meat for them.

This pleased the mother, and in a short time after this Lump began to climb his stepfather.

The most remarkable things

are told of his paternal

deeds.

To divide meat with the little kitten

was nothing uncommon.

Lump made up his mind that the kittens

should never be alone.

He seemed to know that

the kittens would be lonely.

For weeks he had been

watching the box where

the kittens lay.

The mother promptly

arched her back and made ready to

climb Lump if he became too red.

Third Question.—Programme in mechanical applications to the plants and other products of the sea.

Fourth Question.—Programme in

the principal centers of Asia Minor and bound the coast.

SOLDIERS RETURN.

Joe Lanier and Hugh Griffin Back From Manila.

Fruit Hill, Nov. 17.—Farmers are through gathering corn in this vicinity and it is a very short crop.

Mrs. Mildred Martin was the guest of her sister, Mrs. W. E. West, last Saturday and Sunday.

W. S. Barnes is on the sick list at this writing.

R. H. Beckette will begin a series of meetings at this place Thursday night, Nov. 15.

Messrs. Joe Lanier and Hugh Griffin returned home from the Phillipine Islands, last Tuesday, their times having expired. They will make their future homes in Kentucky.

The protracted meeting closed at Hickory Withe last Sunday night. It seems like they didn't have very good success.

Miss Maud West spent several days in Crofton last week attending a meeting conducted by Rev. Shinn and Beckette. FRUIT HILL.

The Saving of Money

by the use of Royal

Baking Powder is considerable. Royal is economical, because it possesses more leavening power and goes further.

Royal saves also because it always makes fine, light, sweet food; never wastes good flour; butter and eggs.

More important still is the saving in health. Royal Baking Powder adds anti-dyspeptic qualities to the food.

There is no baking powder so economical in practical use, no matter how little others may cost, as the Royal

Imitation baking powders almost invariably contain alum. Alum makes the food unwholesome.

HURT BY FALL.

Gash In Head and Other Injuries Sustained.

Mrs. Annie McKee, of Longview, Christian county, and mother of Kee R. McKee of this place, was badly hurt by falling down a flight of steps Sunday night, says the Cadiz Record. A severe gash was cut in her head that required several stitches by the physician, and other injuries were sustained. She is quite an old lady, and it will be a long time before she entirely recovers from her injuries.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp Root, the great kidney, liver and bladder trouble remedy. And it is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing back, kidney, bladder, ureter and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested and proved to be the best possible purchase and has proved so successful in every case that a special arrangement has been made with the manufacturer to sell the paper bottle sent free by mail, also a book telling more about Swamp Root and how to find it if you have kidney or bladder trouble. When you have read this generous offer in this paper send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and one dollar sizes are sold by all good druggists.

IS IT THE HEAD

Of Poor Pearl Bryan The Victim of Jackson and Walling?

Skull Found In a Thicket near Where The body lay.

Cincinnati, Ohio, Nov. 15.—A human skull, believed to be the head of Pearl Bryan was found this morning in a thicket a few rods from where the headless body of the unfortunate young woman was first discovered. The discovery was made by George Girty, a boy.

The spot where the skull was found was a dense tangle of undergrowth and brush but a short distance from the beaten pathway along which Scott Jackson and Alonzo Walling bore the body. The skull had been secreted in such a manner that it might have easily escaped observation forever, and it was more chance that it was finally discovered Thursday morning. An investigation is being made,

FILLING IN VALLEY.

Pond Across Public Road Thing of The Past.

The work of grading and making a "fill" in the Dover road, half mile North East of Herndon, is progressing nicely. During the heavy rains of last Spring and Summer the Coleman pond overflowed the road at that point, the water rising to a depth of from three to five feet, and rendered it almost impassable for many weeks. Several acres of land on the east side of the road became inundated also, preventing cultivation for the year.

The "fill" when completed, will be six feet high in the center of the valley and will be about two hundred yards long. The hills on either side are being cut down and the work of metalizing will follow. The work is being done by workhouse prisoners and is under the supervision of Mr. John K. Major. The improvement to that portion of the road is a much needed one and the citizens of that section will hail with delight the occasion of the completion of the job.

PROCLAMATION.

Governor Says Kentuckians Should Give Thanks on Thanksgiving day, November 29.

Frankfort, Ky., Nov. 15.—Gov. Beckham issued the following Thanksgiving proclamation this morning:

"Commonwealth of Kentucky, Executive Department—Thanksgiving with custom, and in response to the grateful emotions of our people towards Almighty God, I appoint Thursday, November 29, as a day of thanksgiving and prayer throughout the Commonwealth. Let us on that day, give reverent thanks unto Him for the many blessings bestowed upon our country, and lift up our prayers that in the future, as in the past, He may guide the nation through the storms and perils that beset the haven of peace and happiness.

"Upon that day let all our citizens lay aside their business cares and duties to contemplate the growth and progress of their country and to express gratitude to Him, from whom all these benefits have come. We should not forget the poor and suffering among us, and wherever it is possible to extend the hand of charity to those deserving it, the generous impulses of our people will lead them to do so, to relieve distress, to feed the hungry, to clothe the naked during the severities of the coming winter.

"In testimony whereof, I have hereunto set my hand and caused the great seal of the Commonwealth to be hereunto fixed.

"Done at Frankfort this 15th day of November, A. D., 1900, and in the 109th year of the Commonwealth. By the Governor,

J. C. W. BECKHAM,

C. B. Hill, Secretary of State."

Thomas Lander, col., of near the city, has been granted an increase of pension—from \$6 to \$8 per month.

PON LETTER.

Pon, Ky., Nov. 17, 1900.—As your writer from Hilltop said in his letter that flowers were in bloom and that he would like to hear from "Honey Bee," if she hadn't crawled back in her hive for winter, I will write again to let him know I have not crawled back in the hive, nor don't expect to as long as he is flying around with that uniform on, for he is so attractive I will have to be out where I can see him.

Mr. Marsh Long and wife spent last week visiting in our neighborhood.

Bro. T. D. Moore closed the meeting at Ford's Chapel last Tuesday night with no additions to the church.

Miss Fay Barnes had the misfortune to have her shoulder dislocated last week.

Mr. Daniel Foster and family were the pleasant guests of Mrs. Idia Simmons' family last Saturday and Sunday.

Ask a certain young man what was the reason his girl didn't go to meet him last Thursday night. Was it too cold for her?

A Great Medicine.

"I have used Chamberlain's Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phipps, of Poteau, Ark. "It cured me of bloody flux. I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by all Druggists.

AN INDIAN ARSENAL.

Over Two Thousand Arrowheads Found Buried Under A Stone.

Among the collections of Indian relics owned in this state probably the finest, with one exception, is owned by Herbert Southmayd, who lives on the Haddam Quarter road, in the town of Durham, say the Chester (Conn.) correspondent of the Hartford Courant. A large part of them were found by Mr. Southmayd himself, as he is a confirmed relic hunter and knows many of the caves and camping grounds used by the tribes of this state. White flint, black flint, rose quartz, red and yellow jasper, limestone and glass stone were the stones used in the manufacture of 3,000 arrowheads varying from the size of a thumb nail to those nearly as large as a hand. His axes include the fine-edged, highly-polished tool to the rough, unfinished specimens. He has 30 of these, one of which weighs seven pounds, while the smallest scales at 16 ounces.

Of his 11 pestles the longest measures 14 inches in length. Gouges used by the Indians in working out the inside of logs which they had first charred, in making their canoes, number 20. There are ten, five specimens of adze and 12 chisels. Of his three pipes the one he values most highly is a short-stemmed, perfectly bowled, and was found a few miles from his home. It looks much like a common clay pipe of to-day, excepting the color, which is that of red clay. The breastplates are notched around the edges, a notch for each battle the wearer was engaged in. One of them can be counted 65 notches, denoting either a chieftain or one much given to fighting.

There are three war club heads, and a dozen hide scrapers, used in cleaning the hides from which their clothing and tents were made. Among the most interesting specimens to the ordinary man and which cause a peculiar sensation as their use is explained are the three scalping knives. A string of wampum was taken from a skeleton found in Portland. A red sash kettle is absolutely perfect. A bone ornament found in a cove is considered very valuable, as but few of them are in existence. The drills used for making the holes for the leather thongs in their moccasins and skin canoes show great skill and patience, as they are nothing but stones with which they tapered these from about the size of a pencil down to a sharp point. Of these he has 15. Brass arrowheads and a quiver containing honor with iron tomahawks. During a rainstorm a year or two ago Walter Lane sought shelter under a shelving rock at North Guilford, and while stirring the ground up to ascertain what depth had been made by the decay of leaves he was surprised to find an arrowhead. Renewed effort brought out 35 of them. Returning the next day with spade and sieve, he dug out 1,200 specimens, and from evidences found it was doubtless a spot where they were made and laid away against the time of need. Over 2,000 have been taken from that spot.

KIND QUEEN MARGHERITA.

An American writes: How She Has Dedicated Herself to Her Italian People.

An American woman abroad says: "Queen Margherita is, in the parlance of her Alpine subjects, 'our kind queen,' with a strong emphasis on the adjective. She charms every one with whom she comes in contact. A little housemaid in the mountain hotel of Casa Yanzo, where the queen stopped on two of her excursions from Grezzoney, said: 'The queen patted my cheek. Just how kindly patted our kind queen! She is far more affable than even her lady in waiting.'

"The kind queen" heard of a peasant girl who had met with an accident and broken her leg. Forthwith her majesty dispatched a messenger with inquiries and a present, and a promise of a carriage to convey the doctor and patient to the nearest hospital, which was a whole day's drive from where the accident happened. In one of her long walks Queen Margherita passed the charred remnants of the banquet of Saint Antonio. She made instant inquiries as to the condition of the burned-out families, and the result was that each family received a \$20 note from the queen—a fortunate fortune, too. To a foreigner who had been helpful to some Italian peasants whose industry is as great as their poverty, the queen devised an enchanting surprise, making the stranger the channel of the royal bounty to a number of Piedmontese toilants. These are random but typical instances of the queen's tactful kindness."

HABIT NATURE IN A MAN.

It is well known that in the early days of the country the men of all ages were not only soldiers but also hunters, trappers, miners and lumbermen. Many and varied were the trials and tribulations of these men, and it is an indication of the hardiness of the race that they could bear such privations and yet remain healthy and strong. This is the case with the Indians, who, though they have been subjected to the rigors of the climate and the privations of a nomadic life, still remain healthy and strong.

THE WILY CHINEE.

Mongolians in the United States All from the South and "Good Boys."

"I would be willing to bet a house to a house," said an observant citizen, "that you can't discover a native of North China in this country at present with 40 search warrants. Ever since the eastern situation became serious, our Mongolian residents have been wearing out their larynxes in assuring the public that they come from the immediate neighborhood of Hong-Kong on the extreme south coast, and wouldn't know a boxer from a buzz saw. According to their statements the South China man, or Cantonese, and the North China man, or Manchurian, have nothing in common except pigtailed and bias eyes. The Cantonese is a good boy, who goes to mission Sunday school, minds his teacher, loves the Melican man, does on tracts and never holds out collars in the week's wash. The Manchurian, on the contrary, is a tough citizen. He plays fan-tan, hits the pipe whenever he feels like it, eats rats, flies firecrackers to policemen's boats and likes missionaries-boiled. There are no Manchurians in the United States. Our Chinese colonists are composed exclusively of virtuous Cantonese. Moreover, the two tribes speak different languages. If a Manchurian were to say: 'Come, Hop Lunslet's stroll out and try a few missions,' the chances are that Hop would think he was being invited to attend a church sociable and would go under an entire misapprehension as to the character of the entertainment. Consequently Hop would be innocent of wrong. I dare say all this is perfectly true, and the zeal with which the Chinese all over the country are pressing their disclaimers is certainly interesting. The bare mention of Peking makes their pigtailed stand on end. The other day a very neat, fat Chinaman called at my house for some washing. I wasn't sure he belonged to the right laundry, and I said: 'John, do you come from North?' I intended to say 'North Broad street,' but he cut me short. 'No! no!' he shrieked, pitifully, 'me no clun floo! Nol! me South Chinney boy—all same good boy! Me no Blox—me Canton boy—' And he got incoherent and made a bolt for the door. I haven't seen him since."

Rodman Meacham sent four of his Plymouth Rocks to the Alabama State Poultry Show at Birmingham and captured three out of a possible four prizes in a very strong class, meeting many of the best birds in the South. He got 1st on hen and 2nd and 3rd on pullets. No males were shown.

Rev. Geo. F. Pentecost, D. D., of Palmer, N. Y., who preached at the First Presbyterian church Sunday, pleased a very large audience. He is one of the finest preachers who has ever visited Hopewell.

Company D. will meet to-night to make arrangements for attending the Governor's inauguration Dec. 11.

BRIGHT LITTLE DAUGHTER.

Of Mr. John Davis Dies Of Pneumonia Fever.

Little Mabel Lovely Davis, aged two years six months and fifteen days, died last Saturday evening at the home of its parents, Mr. and Mrs. John Davis, near the city. Pneumonia, followed an attack of whooping cough, caused her death. She was a very bright child, the idol of the family, and the sympathy of a large circle of friends is extended to the parents.

The interment took place in the family burying ground Sunday afternoon at 3 o'clock.

SUTTON

THE TAILOR.

Begs to announce to the people of Hopkinsville that he soon will inherit a large fortune from England, and that he won't have to work much longer, but to keep myself in practice I will clean and repair, and put velvet collars on overcoats, &c., so I will not forget the trade. I served 7 years to learn and 25 years experience, besides all work will be done gratis until we 1st of January. It is foolishness to advertise, I am going to quit.

Monuments,

It is nonsense to believe that you can buy of some agent as cheap as you can of your home shop, where you get the best marble and granite at the lowest possible price. If you will call and see our work and get our prices you will find yourself well paid for the trouble.

Yours truly,
